PROFESSIONAL EXPERIENCE

Data Analytics Manager | Baker McKenzie

Jul 2025 – Present

- Collaborate with global and regional executives and cross-functional teams to define KPIs and align reporting and analysis with business objectives.
- Lead end-to-end analytical project lifecycles, translating ambiguous business questions into structured problems and delivering clear, validated solutions, ensuring accuracy, usability, and stakeholder alignment.
- Accelerate the cash conversion cycle by delivering a real-time interactive dashboard that reduced time-to-submit billable hours by 40% firm-wide within two months, enabling earlier collection of \$65M+ in revenue.
- Establish and uphold best practices for data modelling, documentation, validation, automation, and user experience, saving 300+ hours annually through Copilot-enabled workflows for reporting queries.

Business Intelligence Analyst | Baker McKenzie

Apr 2019 – Jun 2025

- Identified trends, anomalies, and performance drivers through exploratory analysis, synthesising complex financial and operational data to produce compelling, executive-level visuals and narratives.
- Managed a portfolio of 80+ automated self-service tools sourced from multiple systems, delivering near-real-time operational and financial insights to over 2,600 monthly users across locations and functions.
- Developed interactive dashboards for client pitches, which played a key role in securing \$80M+ in client revenue.

Management Accountant | Baker McKenzie

Jun 2015 – Apr 2019

- Produced monthly management accounts and led core finance processes, including variance analysis, reconciliations, consolidation, and reporting.
- Provided financial insights to support operational decision-making and budget management.
